

As a measure against identity theft, the Internal Revenue Service as well as states throughout the US are requiring that I include each taxpayer's driver's license number or state identification card number with their tax return when it is filed. This information will be included with each tax return when e-filed, but will not be printed on the tax return that I return to you.

Will you please complete the information below or provide me with a legible copy of your driver's license or state identification card?

Taxpayer \_\_\_\_\_

Please circle type of identification:  Driver's license  State Identification card

Issuing State \_\_\_\_\_

License/Identification Number \_\_\_\_\_

Issue Date \_\_\_\_\_

Expiration Date\_\_\_\_\_

Spouse \_\_\_\_\_

Please circle type of identification:  Driver's license  State Identification card

## Driver's license

## State Identification card

Issuing State \_\_\_\_\_

License/Identification Number\_\_\_\_\_

**Issue Date** \_\_\_\_\_

Expiration Date\_\_\_\_\_

**Important Note: If your driver's license or state identification card has been updated before your return is filed and after you've given me the above information, will you please give me the updated information? This will help to prevent your tax return from being rejected.**

\*\*\*If you do not have a driver's license or state identification card, please let me know.
